THE STRANGES' MADHOUSE

The Stranges is a Swiss - Colombian alternative rock band, created in 2013. Their music, as they call it, is 'Dirty Rock'. After two years of hard work posterior to its EP 'Try This' (which had two songs: 'Twisted' and 'Wonderland'), the band left stereotypes behind and broke schemes in order to make their first Album called 'Madhouse'.

The ten songs of the album tell fascinating stories about the patients that live in the asylum, inviting the listener to discover each character and to explore an exciting musical journey, full of madness. Its sound varies between rock and metal and is topped with pop melodies.

The album was produced by Jorge Holguín 'Pyngwi' and co-produced by Juan Da Morales (he also mixed it), of Art&Co Records. It was mastered by Kris Crummett of Interlace Audio (Oregon, USA).

The Stranges was awarded as Best Rock Artist 2017 in the 'Subterránea Awards' (Colombian Awards) and also won in the next categories: Best Song 2017 (Madness), Best Video and Best CD Art.

The group has played in many festivals and concerts during its career, has participated in business conferences and it works hard every day in order to keep sharing their music with the world.

'MADHOUSE' REVIEW (SPANISH)

By Hugo Alejandro Bernal

"The 'Madhouse' is a flawless album when it comes to production and mixing and it has nothing to envy from other international bands of the same genre. Its development is related to the varied sound amalgams that The Stranges possesses as a group.

We are facing one of the projects of heavy rock and metal with one of the most authentic and best proposals of the last years in Colombia" *(Spanish translation)*

REVISTA CULTURAL SONO

Madness in the list of best videos 2016.

"Once again, The Stranges present a high-quality video. This time for the single 'Madness', that includes a nice make up artwork and has strong references to video games and horror movies".
